Good opportunity to learn Japanese educational system & career path for your children for free!

Living in the different culture from your home country, you may have been concerned about your children's future since you came to Japan.

We'd like to open this information session to get rid of your anxiety as much as possible.

Besides Japanese educational system, you can listen some experiences from foreign nationals for reference. Chinese, Tagalog, and English interpreting are available.

More information will widen the future choice of your children.

Feel free to join us! Don't miss it!

Schedule

① Educational system in Japan

(Instructor: School Education Division)

- How to understand "Report card"
- Performance ranking , Evaluation criteria in Japan
- How to study , Advice for children's homework
